

### Apeejay Rhythms Kinderworld

Offers a fully air-conditioned, state-of-the-art infrastructure. For the first time in the Indian preschool segment, we bring Ambient Air Purifier Technology. This creates the right amount of oxygenated air in the environment, which is critical for increased alertness, memory and overall brain function of children.

At Apeejay Rhythms Kinderworld, we offer a safe, joyful and conducive environment for learning and play. Through play and experiential learning, and with the guidance of skilled and caring faculty, our children explore, question and discover, thus becoming skilled and ready - intellectually, creatively and emotionally. All this makes the Apeejay Rhythms Kinderworld experience, unique and memorable for your child!
